

# TEN DAYS' BATTLE, MORE DEARLY THAN WHOLE TURKO WAR

Desperate Fighting With Fluctuating Victories Still Continues.

SERVIANS SUFFERED HEARTBREAKING LOSSES

Official Circles Preparing Public Mind to Receive Story Unfolding Disaster—Bulgaria Also Loses Heavily.

(Continued from Page 1.)

Greek Right Wing Drives Bulgarians Back.

Saloniki, July 7.—Part of the Greek right wing has driven the Bulgarians across the river Struma and now marching on the town of Serres, according to official reports from Greek headquarters.

Servians Prepare People's Mind for the Unfolding of a Tragedy.

London, July 6.—After 10 days of fighting, more severe and deadly in character than anything in the Balkan war, a little light begins to break upon the hitherto obscure operations.

In the first place the Servians have lost more men than in the whole previous conflict, and semi-official statements issued at Belgrade have the appearance of an intention to prepare the public for news of a disaster.

Desperate fighting with fluctuating fortunes is proceeding from the vicinity of Vardar and Krivopalanje rivers, which seems to be in favor of the Bulgarians.

Important news has been received of the Bulgarian division of Serbs through Belgrade, about 40 miles northwest of Nish, Serbia's most important fortified town.

No indication is given of the strength of the Bulgarian column at the present time, but the Servians claim to have defeated the Bulgarians and captured five guns and a quantity of other war materials.

By the occupation of the passes to have opened the road to Nish.

There is heavy fighting also between the Servians and the Bulgarians to the south of Nish, and in the neighborhood of Kitchina, 100,000 men are engaged and the losses on both sides appear to be terrible.

Bulgaria's strategy appears to be to hold the Greeks in check probably with comparatively small forces, while she deals with Serbia.

Unconfirmed reports credit the Bulgarians with victories near Koplik, giving them the key to Iskup, and with an advancing movement from the south of Tachina Lake, which would cut off the Greek retreat.

Slavonic despatches continue to report Greek victories, who are said to have captured several field guns at Bheran. Evidence of desperate fighting is found in the arrival of 5,000 wounded at Saloniki, leaving the towns accommodation and resources to the utmost.

A conservative estimate of the killed or disabled in the Greek fighting fixes the number at from 30,000 to 10,000. Thousands of desolate refugees from the line of the fighting are pouring into Saloniki.

The Greeks have made wholesale charges against the Bulgarians of burning and pillaging all the villages they abandon and of committing murders, mutilations and other horrors. More than 4,000 refugees are concentrated at Nigritia and adjacent villages.

## LOADED WITH GRAIN, STEAMER RUNS ASHORE

The Ames from Fort William to Montreal Grounds at Salmon Point and Wrecking Outfit Goes to Assistance.

Kingston, Ont., July 7.—The steamer Ames from Fort William to Montreal with grain, ran ashore at Salmon Point 10 miles west of Kingston Friday night.

The Donnelly Wrecking company of this city has sent an outfit to her assistance.

# THEATRES BURNED; NO LIVES LOST

Fire Starts in Rear of Moving Picture House and Adjoining Theatre Is Burned

OTTAWA, July 7.—Fire which started in the rear of the Nixie Picture show building, burning furiously, destroyed that building as well as the Grand Opera house next door. Fortunately no lives were lost.

Nixie Watchman Jacquez at the Nixie theatre had a close call. He was found by the firemen in an unconscious condition. The origin of the fire is unknown. Damage to the extent of \$115,000 covered by insurance.

The first alarm was sent in, the audience had just left the Nixie theatre and a performance was still in progress at the Grand. The actors continued their parts and the play was finished, the audience then being dismissed in orderly manner.

The Masala ladies which their rooms on the third floor, 15 ft. high building lost about \$9,000 worth of furniture and regalia. The entire brewery and main company's Ottawa plant, on the ground floor of the building was also destroyed.

## FIRE DESTROYS MONTREAL CHURCH

Two Hundred Thousand Dollars Worth of Damage Done—Two Firemen Were Injured.

Montreal, July 7.—The St. Charles Roman Catholic church in this city was destroyed by fire Saturday, the loss amounting to \$200,000 covered by insurance. Two firemen were slightly injured by a falling ladder. The blaze originated in the organ loft either from defective electric wiring or from the carelessness of workmen who have been engaged on interior repairs.

St. Charles church on the neighboring property was saved, but the presbytery was damaged when the steeple of St. Charles church fell, portions of the heavy masonry and heavy bell crashing through the roof.

## SEVEN SUFFRAGETTES FORCIBLY EJECTED

One of Them Sympathizer Also Ejected Was a Woman Injured.

London, July 7.—Seven suffragettes and their sympathizing male champions, one of whom was a clergyman, were ejected for raising a disturbance during the course of a speech this afternoon by Chancellor Lloyd George at a garden party organized by the Radicals at West Langdon. Despite the ejection the speaker said that the removal of the disturbance was done entirely on woman was so badly mauled that she had to receive medical attention. From that on Mr. Lloyd George's speech was without interruption.

## CAMP MEETING SERVICE IS STOPPED BY POLICE

Workshops at the Pancoast Mission Resume After They Reduce the Following Matter of Complaint.

Hein, Ont., July 5.—The police of Hein, Ont. stopped the service of the Pancoast Mission camp meeting last night. Complaints had been received from the neighbors of the noise of the workshops.

The workshops later reduced the noise of enthusiasm.

## WING GOLF CHAMPIONSHIP.

La Bonte, France, July 5.—Lord Claude de Bonte, who was the amateur golf champion of France today by beating E. A. Lassen, a former professional, is being followed by others.

There was no disorder.

## CONSTABLES FOR FAIR.

Winnipeg, July 7.—Forty special constables were sworn in for duty during the exhibition by the police authorities Saturday. Thirty-two of them will be under the direction of the city police, the other 10 for service in connection with the electric street railway company.

## STORMS IN QUEBEC.

Quebec, July 7.—There were severe electrical storms, accompanied by heavy rain here this morning. The streets were flooded, holding up the tram cars. The rain fall measured 1.08 inches.

## TO ADJUST SUGAR RATES

Ottawa, July 7.—At a meeting of the railway board to be held at Montreal on Tuesday, the board will have the application of the Montreal board of trade for an order requiring the Canadian Pacific railway to adjust its rates on sugar originating at Montreal, from Fort William to points west of the city.

The Montreal sugar dealers charge that the present rates constitute a discrimination against Vancouver.

## SPOKANE FREIGHT WRECKED.

Cranebrook, B. C., July 7.—The Spokane freight was wrecked at 6 o'clock Saturday evening two miles east of Wardner. 14 cars being derailed and the track torn up for 300 feet and telegraph poles and wires grounded for the same distance.

# Cure Your Sore Throat Nerviline Will Do It

BLESSED RELIEF COMES QUICK  
YOU GET COMFORT EVERY  
PAIN DISAPPEARS

"Experience has taught me that the quickest way to cure a sore throat is with Nerviline," writes Mrs. Enneth P. Maclean. "My children always seem to get wet feet and stay out in the cold and in consequence I have to keep a good household remedy handy. I use Nerviline almost every hour, give the children say twenty drops in warm water, and make them gargle with it. I have yet to see the cold this won't break up quickly."

Write to The Home Islands, W. S. S. Mrs. John Walfield writes: "We have been using Nerviline for about nine years, and find it excellent. When we find any of us getting a cold we take Nerviline in hot water. It is a sure relief for it, and is also an instant relief for internal pains of any kind."

The remarkable pain-subduing power of Nerviline and its ability to check colds, influenza and sore throat is unequalled. Every home should have Nerviline handy on the shelf for sudden illness of all kinds, like cramps or internal pains. Large family size, 50c, trial size, 25c, at all druggists or by mail from The Caltabozzo Co., Buffalo, N. Y.

## COL. HUGHES TO VISIT MARITIME PROVINCES NOW

Returns From Trip Through West and Leaves Immediately for Atlantic Coast

Ottawa, July 7.—Hon. Sam Hughes, minister of militia who returned on Friday from a two weeks' tour of inspection in the Pacific coast, left again today for a brief stay in the maritime provinces. During the course of the week he will visit the military camps and chief military centres of the eastern provinces. The minister will be accompanied by General Sir Ian Hamilton.

## KING AND QUEEN ON WEARYING TRIP

Every Day for a Week They Will Be Touring Industrial Lancashire.

London, July 7.—The King and Queen will leave London this morning for a seven days' tour of Lancashire. They will be guests for a week of Lord Derby at Knowsley Hall, near Prescot.

Probably no notables have ever engaged in such an industrious and regular tour of inspection. From 10 a.m. to 6 p.m. every day their majesties will be travelling by motor car among the people. The intended tour will extend to the state visits to Liverpool and Manchester, will be 200 miles in length.

It is estimated that 3,000,000 people will see the king.

## CHICAGO SUBURBANITES ARE HAVING AUTO RIDES

They Are Enjoying Novel Transportation Because of a Strike on the Street Cars.

Chicago, July 5.—Automobiles, wagons, trucks, bicycles and the like were pressed into service today by suburbanites affected by the strike of employees of outlying street car lines.

One big manufacturing firm at Maywood will use five auto trucks in bringing its men to work, and similar expedients are being adopted by others.

There was no disorder.

## THE INCIDENT OF THE GILTON HOTEL.

Many strikers surrounded the Carlton hotel while the terms of settlement were being arranged last night. When the leaders announced from the balcony that a settlement had been agreed to they were greeted with shouts: "What about the head?" "You've been deceived!" "The strike is over!"

One big manufacturing firm at Maywood will use five auto trucks in bringing its men to work, and similar expedients are being adopted by others.

There was no disorder.

## MINERS DEMAND SOUTH AFRICAN GOVERNOR'S RESIG.

Strike Settlement Arranged Saturday. Rejected by the Rank and File.

SATURDAY A DAY  
OF RIOT AND ANARCHY

Governing Forces Fear that Miners Will Turn Loose Two Hundred Thousand Blacks Now Imprisoned in Compound.

(Continued from Page 1.) The trades unionists are ready to carry out any order that is given them. The leaders have surrounded the newspapers to cease publication until further notice. They count on the government's fear of the natives, 200,000 of whom are locked in the compounds at the mines. They might start feeling for the natives, and the terms of settlement failed to stipulate when the men should return to work, leaving matters in a chaotic condition.

The casualties resulting from the strike Saturday are now estimated at 110. Two officers, three soldiers and several policemen were wounded. The strike leaders are apparently trying to get the men to accept the terms, but on all sides dissatisfaction is expressed. A riot of clearly has been aroused which it is difficult to control.

Johannesburg a War Camp. Johannesburg, July 7.—David Hughes show that about 20 persons were killed and 100 wounded on Saturday and that 100 were killed or wounded on Friday.

The first outbreak of natives occurred at Rand Pottery where 1500 of them broke out of their compounds. Miners charged and drove the natives back to their compounds.

Rioters have burned many small shops and cottages at Benoni, and have also blown up the Star newspaper office.

The incident in front of the Krugersdorp, when the cavalry fired over the heads of the rioters and scattered them, shooting dead a man who was trying to set fire to a quantity of goods, was the last firing episode of the strike.

But Sunday was not altogether quiet. Great crowds gathered in a main road and made a general movement toward the Rand club. The riotous crowd to check them received derisive and hostile replies.

# Here's a fresh thing! Whenever you see it it's *always* fresh!

Wrigley's **SPEARMINT** is made today, shipped tomorrow, sold next day. It sells so fast, it's always fresh—never has a chance to lie around.

It's always tender, fragrant, delicious, always ready for you. It "starts" quickly—"springily"—and the fragrant mint leaf flavor is long lasting and beneficial.

And the oftener you enjoy it, the more you benefit by this pleasant aid to teeth, breath, appetite and digestion.

HUDSON'S BAY COMPANY

HUDSON'S BAY COMPANY

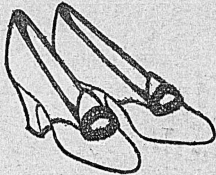

HUDSON'S BAY COMPANY

# It's Up to the Second Floor Managers to Make Tuesday a Record Day at "The Bay"

THE Second Floor department managers are mighty enthusiastic over this great stock-reducing event—they are anxious to make a wonderful showing. They realize that we are very much in need of "elbow room" for the workmen who are making our alterations and building the new addition—and they realize also that it is mighty near inventory time and that stocks must be reduced to almost nothing right away. So, tomorrow, we will turn over the July Clearance and Rebuilding Sale to these second floor buyers—its up to them to offer economies powerful enough to bring you hurrying past the down-stairs departments and up to them. Read a few comparisons of original and present values quoted below—profit by the emergency and be among the early comers.

## Here's an Opportunity for You to Save Much on Footwear for the Entire Family

—The buyer for this popular department contributes but three items to "Second Floor Day"—but these three economies will do as much to keep the upstairs sections crowded from opening until closing time. Quantities are limited—you had better be here early in the morning if you would have first selection.

ELIMINATION OF THE WAR SCARE  
WILL IMPROVE SITUATION IN THE WEST.

If the dispatches of today may be accepted as authentic, there is no occasion for worrying about the financial effects of the newest Balkan war. European powers have decided by mutual consent that the only interest they may have in the matter is to localize the trouble. The Balkan states are to be left to fight it out among themselves with no rule except the survival of the fittest.

In a word, this means that there is no very great danger of the war spreading to other countries in Europe, and with the feeling of apprehension thus relieved it may be expected that the financial market will now very quickly settle down to its normal course, relieved of the strain caused by constant anticipations of a world war.

This, however, cannot be taken to mean that money for western development will be as free again as it was a year or two years ago. Entirely different reasons having nothing whatever to do with the war, have worked together to make money more valuable in the old country, from where Canada gets her supply of borrowed capital. Most potent of these reasons is the immense boom in industrialism which has set in in Great Britain. Imports and exports show that trade is livelier there at the present time than at any time in the previous records of the country. Every factory is busy and every man in the country is profitably occupied. Added to this is the enormous outlay occasioned by the development bill, lately put into operation throughout the British Islands, a scheme for rebuilding Britain which is taking an immense amount of ready money. These together make a demand for money right at home which makes it much less profitable than it was some few months ago to send the money to the dominions beyond the seas to earn larger returns in interest.

However, the principal effect of the activity in the old country, at least so far as Canada is concerned, will be to make interest rates higher, and hereafter, even with the war feature eliminated, it may be taken for granted that Canadian undertakings will have to find their money in the London market in direct competition with a British demand which heretofore was upon an entirely different plane from that of the dominion.

It may as well be taken for granted that from this time forward, cities, provinces and those larger undertakings which have practically eliminated risk will no longer be able to get money on the same favorable terms as in days gone by. But with the disappearance from the market of the war scare, they will at least be able to get money on the terms that are even though these terms entail a higher cost for every enterprise undertaken in the west.

WHAT MILITARISM  
ALL LEADS TO.

Soldiers, scientists and students who make a study of the history and art of war have been telling the world for a decade or two back that the invention of quick-firers, automatics, pom-poms and such other terrible destructive modern machinery of war as has now come into use would have the effect of lessening rather than increasing the casualty list in time of warfare by reason of the fact that battles would be fought at long range and that only in extraordinary cases would the contending armies come into close contact. Some have gone so far as to contend that battles would be fought in which the opposing armies did not even see each other, but would scatter about over a country-side, taking advantage of the natural defences and hides, and firing at the other fellows, also hidden, a mile or two or three miles away, and finding a human mark only once in many hundred shots.

The experience of the present Balkan war, however, brings a ghastly refutation of the comfortable theorizing of the arm-chair war prognosticators who have predicted that war would be less deadly than in days of old when men marched in phalanxes into hand to hand conflict and battered each others brains out with clubs. In the first engagement between the Serbians and the Bulgars, so the dispatches tell, a battle line fifty miles long engaged in the deadly kind of hand to hand fighting. Bayonet charges in the dark, and the rushing of trenches were in regular order, just as in days of the Peninsula war when the best of rifles could not fire more than five or six times a minute, and then none too accurately at that. In this first Bulgarian-Serbian battle, ten thousand men were slaughtered in a single day's fighting and when the whole tale of the tragedy is unfolded it will undoubtedly prove a revelation of stupendous butcheries of human beings.

So ho fably destructive have the modern mechanisms of war been by the cunning genius of inventors that one shudders to think of the potentialities for slaughter that the soldier who goes into the field today carries in his hand or of the virtual annihilation of the manhood of a nation in the course of a few moments which would be certain to follow should the armies of any two first-class powers come into close conflict. One modern soldier, equipped with the regulation man-killing outfit, could have wiped out Caesar's column with complete safety to himself and one man with a Maxim and a pack train to bring on the ammunition could have annihilated Alexander's army before breakfast. The resistance of the human frame to the projectile is no greater today than 2000 years ago, and the soldier who marches to the front in these modern times is quite as defenceless against the Maxim as Caesar's soldiers or Alexander's would have been. The neatness and dispatch with which Kitchener moved down the Kalifa's hordes is probably the finest illustration of what may be achieved with up-to-date weapons, and when one pictures two armies thus equipped, liberally supplied with ammunition, and trained to the work of slaughter, the completeness of the butchery on both sides which would certainly follow their clash is too ghastly for consideration. One has only to add to the ghastliness of the picture the supposition that it is the sons, fathers and brothers of our own folk, the boys and playmates of the old home town who are marching up to the hell-roaring guns to get a glimpse of the other side of the picture and an appreciation of what this militarism which has taken such a hold in Canada all deals to.

TIME TO FORGET  
RABBIT HILLS SCHEME

According to the insurance experts, there is no advantage to be gained by the location of the water plant on either the Beaver or the Rabbit hills so far as insurance rates are concerned. As they see it, the plant is better where it is than in either place spoken of as a new site.

This brings us back to the old question of possible contamination at the present site. Experts do not know where they speak declare that water taken from the present location is perfectly pure and uncontaminated. But even though this may be true there is a natural squeamishness which possesses one when drinking water which it is known has flowed past the place where people live. This squeamishness may be quite unjustified, but it is there, and in concession to this feeling it may be necessary eventually to place the pumping station above the city a few miles, as was proposed in the original plans of five or six years ago.

So far as the Rabbit Hills proposal is concerned, however, it might just as well be forgotten. Edmonton is rich, undoubtedly, but has other uses for its money than to pump water up to the top of a hill so that it may run down again.

PROVING THE PREMISES FOR  
NON-METALLIC CURRENCY THEORY.

What would be the effect upon the world's business if the strike of miners in the Rand were to result in closing down the mines for an indefinite period?

The world's business is done on a gold basis and no one feature of the stock and bond market is watched with greater attention than the supply of gold. Five years ago financiers were worrying about the flood of gold and prophesying lower interest on bonds. But up until the commencement of the strike a few days ago the Rand mines were making the largest output of gold on record and their addition to the world's stock has not been sufficient to keep the interest-rate from mounting month by month, almost in direct ratio with the increase in the gold supply which was to have resulted. Now it seems that the gold mines of the world, working at concert pitch, do not produce sufficient gold to supply the requirements of the world's business. Should the strike now in progress in Johannesburg seriously interfere with the output from this, the greatest gold field of them all, the effect, although it could not under any circumstances be more than temporary, would give a fair illustration of how the shortage of this metal which of itself has practically no usefulness could disarrange the affairs of the world. It is because gold can become scarce or plentiful, and by so doing create an unnecessary condition in trade and commerce, that advanced economists argue should be abolishing the gold standard and that other metal standards should be tried to prove the correctness of their premises.

## JUST PARAGRAPHS.

Those Balkan states which can finance a war in the midst of the stringency must have finance ministers who know their business.

Having contracted the war habit, the Balkans seem unhappy unless killing their neighbors or being killed by them.

TODAY IN  
DOMINION HISTORY

The Rev. John McNeill, who recently became pastor of Cook's church, Toronto, was born at Houlston, Herefordshire, 39 years ago today, the son of a quarryman. His early education was received in the Free Church schools of his native village, and at the age of 15 he entered the railway service. He was 23 years of age when he abandoned railroading to study for the ministry. After eight years of study at Edinburgh and Glasgow universities and the Free Church divinity hall at Glasgow, he was ordained and called to an Edinburgh church. In 1889 he went to London as pastor of the Free Church Presbyterian church, and remained there until 1892, when he began his noteworthy career as a mission preacher with the late D. L. Moody. As an evangelist, he toured Great Britain, Ireland, India, South Africa, Australia, New Zealand, Turkey, Asia Minor, the United States and Canada, and became famous throughout the world as an eloquent and forceful preacher. Within the last five years he has served churches in London and Liverpool. Canada has attracted few more distinguished clergymen than the Rev. John McNeill.

Col. John Graves Simcoe was inducted into office as lieutenant-governor of Upper Canada on this date in 1792.

Hon. Desires Girouard, distinguished Canadian jurist and author, father of Sir Edward Girouard of African fame, was born at St. Timothee, P. Q., 77 years ago today.

## IMPEACHMENT TRIALS

The first public man to be impeached by the United States congress was William Blount, senator from Tennessee. The impeachment was formally filed against him 116 years ago today, July 7, 1797, when he was charged with conspiracy with the British to raise the Cherokee Indians against Spain in Louisiana, and to disaffect the Indians against the United States. He was placed on trial the following year, and was acquitted by a vote of 14 to 11. The first impeachment by the English House of Commons was in 1296, against the Lord Chancellor, Michael de la Pole, Earl of Suffolk. Perhaps the most celebrated impeachment trials in history were those of Warren Hastings, in England, and President Andrew Johnson, in America, both of whom were acquitted, the latter by a single vote, Richard Brinsley Sheridan, who died 97 years ago today, made a speech in support of Hastings which is considered one of the most splendid examples of eloquence upon record.

## CRICKET GAMES RESULTS

London, July 7.—Following are the results of English county cricket matches started Thursday last, two of which were drawn:

Kent scored a win over Surrey at Blackheath by six wickets; Warwickshire defeated Gloucestershire at Nunstons by eight wickets; Yorkshire won from Leicestershire at Leicester by 100 runs. Rhodes played a splendid innings for Yorkshire compiling 152 runs before being dismissed.

Essex achieved their first victory of the season by beating Sussex at Leyton by 131 runs. The best performance with the bat was made by Freeman (1) for Essex, who registered a closely played 124 not out. By winning from Sussex, Essex have equalled their performance of last year when they defeated them, and, but over Derbyshire at Leyton.

The Lancashire-Northamptonshire match at Manchester, ended, but over draw. Sharp (1) for Lancashire contributed a useful 123. This match was a benefit match for A. Paul, the Lancashire professional.

The Worcestersters-Middlesex match at Worcester was also drawn. For Worcestersters Bowry (1) played a nice innings for 155 runs, while Hendry (2) put together 123 runs for Middlesex before being retired.

SACKVILLE VERDICT IS  
LOOKED FOR TOMORROW

Court Again is Crowded With the Representatives of the Aristocracy—Lady Sackville Not There.

London, July 7.—Lady Sackville, the person most interested in the outcome of the "light for the million" was not in court when the concluding stages of the case opened today. It was stated that she felt tired of rest after her experience on the witness stand last week.

When Sir Samuel Thomas Evans, the presiding judge, took his seat for the eighth day hearing of the action by relatives of the late Sir John Murray Scott to plead the invalidity on account of alleged undue influence of the will by which he bequeathed nearly \$5,000,000 to Lady Sackville, the court was again crowded with representatives of aristocracy.

Sir Edward Carson at once began to address the jury on behalf of Lord and Lady Sackville, upholding the validity of the will. The verdict is expected tomorrow.

## TO APPOINT AUDITORS

Ottawa, July 7.—The Canadian Bankers' association has given formal notice that the general managers of chartered banks of Canada will at an early date meet at the bank of Montreal for the purpose of appointing the various banks to provide for a system of external inspection of Canadian banks. Notice is given to the various banks that the names of their nominees must be in before July 11.

## GRIM DANGERS FOR SETTLERS IN THE NORTH

Tragic Story of How a Man  
Helping With a Scow Is  
Swept Overboard.

### DANDELION GREENS ALL FOOD FOR OTHER PARTY

One Member of the Party Has  
Strength Enough Left to  
Hail a Passing Steamer,  
and All Are Saved in Nick  
of Time.

Two stories, details of which reached the city today from Fort George, forcibly illustrate the hardships and dangers which pioneer settlers undergo in building up the country.

A party of new settlers had a grim experience on the dangers of the Grand Canyon of the Fraser, when one of the men who was helping them with the scow was swept overboard and drowned.

The party, which comprised two brothers, B. H. and A. S. Stewart, of Devonshire, Eng., and T. L. Storey, an Ontario man, were freighting provisions and farm implements to Fort George in two small scows. The men were informed that their craft were too small to pass through the treacherous rapids in safety and after a two-days' delay, their freight was transferred to a large scow belonging to Sims and Carey, railroad contractors.

While passing through the canyon, one of the men operating the scow put out a sweep into the whirlpool.

The force of the water against the sweep threw the scow and the man was pitched overboard.

**Holds on With Feet.**

While his whole body was in the water the man clung desperately to the scow with his feet, and Storey made a persistent attempt to save him. Just as he had obtained a firm purchase on the drowning man's feet, however, Storey was himself struck with the sweep and forced to relax his hold. The man in the water was almost instantly swept to death.

By reason of the customary north country objection to acquiring into a man's identity or antecedents, the name of the man was not known to his companions.

Now half a pound of tea and some dandelion greens were made to sustain life for five days of four men near Fort George, was told by passengers on the river steamer.

Robert Willie, Toronto, R. Proud, Ottawa; J. Manning, New York and Charles Blake, Ontario, who had been freighting for Percy Walsh and Stewart left for Quesnel in a small boat, intending to work there in the hay fields. The first night out the men tied the boat to the river bank, and, on awakening in the morning, found that the craft with all their provisions, had disappeared.

**Tortured by Hunger.**

For five days the men were trapped along the dreary wilderness on the left bank of the Fraser river, suffering tortures from hunger and weakness, but hoping against hope that their strength might survive until aid was reached. All the nourishment which the men were able to obtain was a little tea and some dandelion greens.

In the fifth day, just as the men were about to give up, the slightest struggle with death, the steamer B. N. on her way to Quesnel, saw the men and Willie, who had retained more strength than his comrades, rushed to the bank and frantically hailed the passing steamer. The cries for assistance were heard, and the four men were taken on board.

According to passengers on the vessel it must only have been a matter of a few hours until the men expired from starvation and over-fatigue.

### JUDICIAL DISTRICT PROMISED ATHABASCA

Liberal Candidate Makes Significant Reference to Waterways Bonds and Possibility of Road to McMurray.

Althabasca, July 7.—During the course of an address to the electors here the other evening Hon. A. G. McKay, the Liberal candidate for deferred election for this constituency, read a letter received from the attorney-general in reply to one he had written, and in which he had made the recommendation, stating that Athabasca would be made a judicial seat, and that a resident judge would be appointed and a court house erected this summer. This announcement was received with much gratification, as court cases from this part of the country have to be tried at Edmonton or St. Albert, involving much unnecessary expense and loss of time to litigants.

Referring to the railway situation, Mr. McKay stated that he thought the Canadian Northern should be constructed from here to Fort McMurray without delay. This statement followed a casual reference to the A. & G. W. bonds. Some of those present were disposed to consider this very significant, but he did not see any connection between the two references.

Mr. McKay's canvas of the riding is proving most successful. The general impression seems to be that he is the right man to represent the district, especially at this particular stage of its development.

### MANY FOR THE WEST

Holifax, N. S., July 7.—The North German Lloyd liner Hanover, from Bremen which arrived yesterday, brought 1,200 passengers, and the Transatlantic from Hamburg, the majority of whom are bound for Western Canada.

## THE GAY WORLD.

### LANDRY-OLIVER.

At St. Mary's Roman Catholic church, in this city, on Friday, the 4th inst., was celebrated the wedding of Dr. A. Raymond Landry, of Edmonton, son of Dr. Justice Landry, of the supreme court of New Brunswick, to Miss Elsie Oliver, of Galt, Ont., daughter of Col. A. J. and Mrs. Oliver. Rev. Father Dalton officiated in the presence of a few intimate friends, who made the journey from Edmonton to the church of St. Mary's, to witness the ceremony. The bride and groom were unattended.

Dr. Landry is a former graduate of McGill university, a member of the medical class of 1907. Many local Phila. Med. men will join in celebrating good wishes.

An interesting feature of the ceremony was the presence of the venerable Father Lacombe, who has just been made the recipient of a pink present in the form of an automobile from Mrs. E. C. Lacombe and Dr. Fisher. Father Lacombe gave his sacerdotal blessing to the newly-made bride.

Mr. W. T. Hart, Twenty-fifth street, spent the week-end with his family at their summer place, Wabamun lake.

Miss Maude Wilkes of Toronto came into town Saturday evening to be the guest of her sister, Mrs. Edmund Barker, Twenty-fourth street.

Mr. and Mrs. G. W. Kirkpatrick spent the week-end at Wabamun lake. Major and Mrs. Thibault were also at their cottage on the lake shore for the Sunday.

Mrs. John H. Tully, of Mitchell, Ontario, is in town, the guest of her son and daughter-in-law, Mr. and Mrs. H. P. Tully, Twenty-fifth street.

Mrs. Jackson of Brookville is in town, the guest of her brother and sister-in-law, Dr. and Mrs. O. J. Strong.

Mrs. Wallace Smith entertained informally last week for Mrs. Wyma A. Miller, of Virginia, Minn., who is staying with her mother, Mrs. John McNeilan of this city.

The hostess was assisted in the tea room by Miss F. E. and Miss Jessie McNeilan. The rooms throughout were prettily decorated with wild roses and pink carnations.

Among the guests who enjoyed Mrs. Smith's hospitality to the utmost were Mrs. W. A. Miller, Mrs. Bolton, Miss Bolton, Mrs. Eby, Mrs. Howard, Mrs. Hurst, Miss Hurst, Mrs. Lawley, Mrs. Horner, Mrs. Clement, Mrs. McNeilan, Mrs. H. McNeilan, Mrs. May, Mrs. Blair, Mrs. Russell, Mrs. A. Stuart, Mrs. Scott, Miss Speer, Mrs. Thompson, Mrs. Williamson.

Mr. and Mrs. T. H. Miller and Miss Miller left on Saturday for Banff, where they will spend a month. The party will include the son-in-law and daughter, Mr. and Mrs. A. H. Pearce.

Mrs. Murphy Miller was the hostess of a smart tea on Saturday afternoon in honor of her mother-in-law and sister-in-law, Mrs. Miller, Mrs. A. Stuart, Mrs. Miller, Jr., of Lloydminster.

The house was beautifully decorated throughout with great quantities of Richmond roses. Against this glowing background, the frocks of the home party and the guests were particularly effective.

## To Finish Abroad Not Always the Right Course

Except Singer Has Some Sparks of Genius, Such a Finishing May Mean Only Heartache—Singer May Be Prey of Swindlers.

The circle of concertists to be given by Miss Lacosta and associated artists became Wednesday at 8:15 in the First Baptist church. The entire cycle is called "A Day in June," and tomorrow evening's concert, "Day Break."

Lacosta is often asked to give her opinion in regard to sending American girls abroad to "finish" their musical education. Unless a student is well grounded in the fundamental principles of music, ear training, technique, rhythm, harmony, history of music, sight reading and foreign languages, and all the branches that go to make up broad musicianship and has a decided natural talent for music, combined with a gift for hard work, I would not advise it, she says.

You cannot teach old world philosophies to new world lasses in a day or week. They have to learn by experience and often experience is dearly earned.

Miss Lacosta is coping here under the auspices of the W.C.T.U.

## Will Open New "Y's" on South and East Sides

Quarterly Meeting of Y. W. C. A. Board Decides That Homes Are Necessary—Will Have Cafeterias in Connection.

The increased development of the city has created a pressing need for a new Y. W. C. A. work was discussed at the quarterly board meeting held on Saturday afternoon in the clubhouse of the home, Third street. The secretary's report showed that the board had decided to open up a boarding home for about 40 or 50 residents by September, and it was possible to have a cafeteria for non-residents. The meeting decided not to overlook the claims of the east end. A cafeteria and home for girls working in that district will be opened up as soon as negotiations for suitable quarters can be completed.

The board acknowledged with grateful thanks the kindly donation of \$200 from the Hudson's Bay company, \$10 from the local W.C.T.U., and \$20 from the Women's Canadian club. Just at this particular time, when there is such an urgent need for increased accommodation for the new and transient workers, the board expressed themselves as being open to receive any donation, no matter how small.

## FETE AT GENERAL HOSPITAL.

Tomorrow evening at 8 o'clock there will be a lawn fete on the grounds of the General hospital. There will be a military band in attendance. The grand march, in which all those in attendance will take part, will be an especial feature of the evening's entertainment.

The object of the fete is to provide funds for the purchase of a piano for the new home of the nurses of the hospital.

Members dealing in "Idiot's Damnation," so Mr. Hamilton said, and in such an environment it was impossible to raise children to be ideal men.

In conclusion, Mr. Hamilton urged: "Let us stand shoulder to shoulder with man and woman, and enter the battle and fight the fight of reform and hasten the day when the flag will float over a single bar-room or brothel in Canada. Let us have an ideal home land where ideal men can be raised."

## WHEN YOU'RE THIRSTY TRY

# ICE TEA

Ice Tea with a slice of lemon in it. It will refresh you wonderfully and besides it's invigorating and absolutely pure.

Allow the tea to steep for five minutes and then pour off into another vessel to cool gradually. Never use artificial means of cooling until ready to serve; then add sugar, ice and lemon.

## "FINE FEATHERS" MAKES A RECORD

Never in History of the Empire Has There Been Such a Demand for Seats.

Judged from the number of inquiries by mail, telephone and in person, received at the box office of the Empire theatre where "Fine Feathers" plays a successful engagement of four performances, starting next Thursday night, there will be a record breaking crowd in line tomorrow morning when seats for the engagement go on sale.

Never before has any dramatic offering been sent to this city which holds forth so much promise as "Fine Feathers," with its original cast of famous stars. The play comes here direct from its remarkable run at the Alford theatre where "Fine Feathers" plays a successful engagement of four performances, starting next Thursday night, there will be a record breaking crowd in line tomorrow morning when seats for the engagement go on sale.

## PRINCE HENRY COUNTED "A MOTHER'S DARLING"

Third son of King George is Not Likely to be Received With Much Enthusiasm.

London, July 7.—Prince Henry, King George's third son, who is just going to Elton, may not be received with much enthusiasm, as at the private school he attended he had the reputation of being a mother's darling and a son who was not to be mixed with other boys.

He is the first of King George's sons to go to Canada, and is supposed to be on the same level with the other students. He is going to Mr. Lubbock's house where he is boarded. The boys in the house have decided to call him Henry, as they thought "Geoffrey" was a little long.

## SUMMER SCHOOL OPENS WITH EIGHTY TEACHERS

Nature Study, Gardening, Agriculture and Manual Training Some of the Subjects to Be Taken Up.

Over 80 teachers are attending the summer school for teachers, held under the auspices of the department of education, which opened today. The classes are being held in the south side college buildings, while the teachers are quartered in the University of Alberta.

Teachers taking the course will obtain valuable information on a number of more technical subjects on which they have to give instruction, including nature study, gardening, agriculture, manual training, domestic science, the fine arts and physical culture. Teachers, passing successfully through a course, will be granted diplomas.

## CLEVER PROGRAM AT THE EMPIRE

Well Balanced Bill is the Orpheum Offering First Half of Week.

A well balanced bill of clever vaudeville acts is announced for the Empire theatre the first half of this week, starting with a noisier show. Milton Pollock and his company of three will hold the headline position with one of George Ade's best comedy sketches, "Speaking To Father," in which Mr. Pollock has been so remarkably successful in the varieties during the last season.

Thomas already returned yesterday from a search for the bodies of the victims of the launch disaster. He went down for over 20 miles on the river, but met with no success. They searched every possible bend or eddy where the bodies might perhaps lie, and without finding a single one. He has no trace of any of the victims.

He asked Inspector Wright of the police force if anything further could be suggested that would help at all. The Inspector thought that perhaps if the steamer were taken down and a search made for the bodies, they might perhaps bring forth something.

This suggestion will likely be carried out. The steamer taken down for 20 or 30 miles with the river dragged on the return trip.

at, Willis lost consciousness, and when he recovered Saturday evening he found himself covered with leaves at the side of the road, where he had evidently been put by the bandits under the impression that they had killed him.

Stiff and sore from his wounds, he managed to make his way to his camp, where he lay for several days in his weakened condition the trip took 10 hours.

Almost dead, he crawled into his bunk, where consciousness left him again, and where he was found some days later by his friends and taken to the city hospital. He is in a very serious condition, but it is believed he will recover.

Tokio, July 7.—Prime Minister Taketomi, Artzuquawa-no-Miya, head of a collateral branch of the Imperial family, died yesterday.

The funeral took place this afternoon at A. Anderson and C. Anderson who were asphyxiated at Mile 38 B. C. on the C.N.R. by entering a tunnel too soon after a blast had been made. The men had no relatives that can be ascertained and were taken in charge of by Connelly & McKinley from whose parlors the funeral was held to the Edmonton cemetery.

One man was almost cut into pieces, another lost part of a foot and a third was hurt about the face and head.

## Ruptured People—Give This A 60 Day Trial

Only Thing Good Enough To Stand Such A Thorough Test

Here is something you can try risk-free, just as a test—without having to risk a cent—because in the last twenty-four years have saved thousands of ruptured people from having to undergo operation.

Something so strengthening to the ruptured parts that you can work them without the slightest pain or trouble. Something absolutely perfect, and yet so simple that even a child can use it.

**YOU DON'T HAVE TO RISK A PENNY**

We don't ask you to risk a penny on the strength of our claim. We will give you a guaranteed rupture cure absolutely free, and if it doesn't cure you, we will refund your money.

**IF IT DOESN'T CURE YOU, WE WILL REFUND YOUR MONEY**

If it does give you a thorough test without risk, and if it does cure you, we will refund your money. If it doesn't cure you, we will refund your money. If it does cure you, we will refund your money.

**SEE WHAT IT DOES**

This guaranteed rupture cure—the famous "Clute" Automatic Massage Machine—is made on an absolutely new principle. It is far more than just a truss. It is a truss that gives you the relief of a truss, and it gives you the relief of a truss. It gives you the relief of a truss, and it gives you the relief of a truss.

**80,000 PEOPLE HAVE TESTED IT**

The Clute Truss has been tested by 80,000 people, and it has been found to be a most strengthening and beneficial effect. It has been found to be a most strengthening and beneficial effect. It has been found to be a most strengthening and beneficial effect.

# CUTSHAW, THE SECOND BASEMAN FOR THE DODGERS.

New York, July 7.—While the popular baseball fans, who are breathlessly following the fortunes of the two major leagues, are balancing one man's playing against another's, it would be well for them to pause and consider the case of Mr. Cutshaw, the gentlemanly and handsome man from the Brooklyn National team.

While it is not going to be set forth for Cutshaw that he makes Johnny Evers in his pained days look like an Indian clear sign, nor yet that he has won the laurels from Eddie Collins' marble brow, this is what he has within two months' play, pushed him into the rarefied atmosphere where dwell those choice and select spirits known as base ball stars. While he may be lacking a little of the dash of a Collins or a Doyle his efficiency at the second base is growing more conspicuous every day and the prediction is hereby made that before he is many years older in the game he will stand second to none as guardian of the keystone position.

The way Cutshaw goes after the ball, whether it is up in the air or on the ground, to the right or left or behind him, is of the class of a water order.

The Brooklyn National team.

## SCHEME TO RUN CANADIAN TRAINS THROUGH STATES

Industrial Commissioner Hall Writes to Six Western Cities to Co-operate.

**TWELVE MEN NEEDED FROM EACH SECTION**

They Are to Provide the Expense of the Exhibit and Goods of All Kinds are to be Carried Along.

That the cities of the western provinces should adopt a new policy in the matter of advertising the merits of the great western centres and what they are doing in the way of establishing manufacturing industries, is the problem that Industrial Commissioner Hall has been thinking out during the past few weeks. He has now evolved a scheme in which all the larger cities might profitably co-operate.

With this object in view, Mr. Hall has written to six cities in Alberta, Saskatchewan and Manitoba, in which he asks their co-operation in a scheme to organize and run a "Western Canada" train through the northern central and western states.

The idea is this: Edmonton, Calgary, Medicine Hat, Moose Jaw, Regina, Saskatoon and Winnipeg each asked to supply twelve men who will agree to pay their share of the expense of chartering a special train for two or three weeks.

All kinds of exhibits, the train will be conducting some what along the lines of the "Made in Canada" train which has recently concluded its tour of the west. The train will be fitted up with exhibits of all kinds, showing the products of Western Canada. And the twelve men from each of the seven cities named will take the trip, each one acting as a "booster" for Western Canada as a whole.

"If these other cities agree to find the twelve men who will be willing to put up the necessary expense money, I think Edmonton will be able to supply twelve men, also," said Mr. Hall this morning. "If arrangements can be carried out, the train should leave Winnipeg sometime in September. The route with include Minneapolis and St. Paul, and from there the train will go through most of the northwestern states. I believe that the publicity gained would prove of great value to Western Canada."

**Scheme is Practicable.** That the scheme as outlined by Mr. Hall is a practicable one is evidenced by the fact that business men of Portland, Oregon, recently carried out a similar campaign. One hundred and fifty men in Portland agreed to furnish \$1,000 each. This paid all the expenses, including entertainment of the train trip through Washington, Oregon and a part of California.

Mr. Hall does not believe that the expense of the Western Canada train need be nearly so heavy, and his idea that if Portland could find 150 men who would give a \$1,000 each, that the seven western cities named, could easily find 12 men each who would agree to furnish the expenses of a publicity train through the northwestern states.

**HEAVY RAINS DELAY LANDING BRANCH TRAINS** Althabasca, July 7.—The heavy rains last week have been the cause of much inconvenience to traffic on the C.N.R. between here and Edmonton, several small washouts having occurred. The heavy rains have been running very low in consequence. Passengers by Thursday's mixed from the capital reached here at 9:30 in the evening, riding on top of box cars, ladies, children and all. The derailment of a coach four miles east was the incident that occasioned this experience.

## COUNCIL COURT OF APPEALS IS GOOD TO FOUR

Largest Reduction Is to the A. McDonald Company Which Takes Off \$7000

**FIFTY SILVER HEIGHTS LOTS CUT OFF \$100 EACH**

Mrs. M. L. Berthiaume Is Allowed \$1500 Off Two Lots on the River Bank as She Is Not Allowed to Build.

At the city council court of appeals, held in the council chamber this morning, only four of the list of appeals brought up from the commissioners' court were allowed.

The largest reduction was made to the A. McDonald company. This valuable property has been assessed at \$99,000 for two corner lots. Mr. Cooper appeared on behalf of the company, and secured a reduction of \$7,000, making the assessment now stand at \$92,000.

The plan of assessment has been to assess all four corners equally, but the inside lots immediately adjoining the corner lots on the south of Althabasca avenue are more valuable than those north of the avenue, and therefore when the total assessment of the two lots on the south corner are compared with the lots across the street there is a difference shown.

The court held that the two lots on the north corner should be as valuable as those on the south and accordingly reduced the assessment.

**Reduction on Lots.**

A. E. Latimer appealed against the assessment on 50 lots in Silver Heights, South side. On lots 5 to 12 inclusive, in block 8, and lots 7 to 14 inclusive in block 12, he was allowed a reduction of \$1,000 a lot, the lots being reduced from \$550 to \$450 each.

Mrs. M. L. Berthiaume, as the owner of lots 10 and 11, in block A, R. 12, in block 8, and lots 7 to 14 inclusive in block 12, she was allowed a reduction of \$1,000 on an assessment of \$4,000 for the two lots.

M. H. McFarquhar appealed against an assessment of \$22,500 on one triangular lot in the Great estate. He contended that on account of the peculiar shape of the lot it was not as valuable as the adjoining lots. Although this lot contains more ground it is not as suitable for building purposes. The council reduced the assessment by \$2,000.

John Skinner, owner of lots 3 and 4, block 21, assessed at \$1,500 each, secured a reduction of \$500 on each lot.

**C.P.R. Too Late.**

These were all the appeals that were heard before the appeal court. The appeal of the C.P.R. was not handed into the city clerk in time, and so was not allowed.

The C.N.R. appealed against the assessment on their terminals and freight yards, but the appeal was not allowed. It would be a good idea to have the rules governing appeals against assessment printed, so that citizens would know what was the proper procedure in order to appeal.

Mayor Short said by thought it would be a good idea to have the finance and assessment committee of the council meet the assessor at the beginning of each year and discuss with him the general policy to be followed during the year in making up the assessment. In this way the council would know along what lines the assessor was working.
